

At UNE, academic programs and co-curricular units typically either set their own benchmarks or use their

own benchmarks. For example, the program for the Bachelor of Science in Business Administration (BSBA) at UNE sets its own benchmarks for each course. The program for the Bachelor of Science in Business Administration (BSBA) at UNE sets its own benchmarks for each course.

For example, the program for the Bachelor of Science in Business Administration (BSBA) at UNE sets its own benchmarks for each course. The program for the Bachelor of Science in Business Administration (BSBA) at UNE sets its own benchmarks for each course.

Here's an example:

- The program for the Bachelor of Science in Business Administration (BSBA) at UNE sets its own benchmarks for each course. The program for the Bachelor of Science in Business Administration (BSBA) at UNE sets its own benchmarks for each course.

For example, the program for the Bachelor of Science in Business Administration (BSBA) at UNE sets its own benchmarks for each course. The program for the Bachelor of Science in Business Administration (BSBA) at UNE sets its own benchmarks for each course.

Here's an example:

- The program for the Bachelor of Science in Business Administration (BSBA) at UNE sets its own benchmarks for each course. The program for the Bachelor of Science in Business Administration (BSBA) at UNE sets its own benchmarks for each course.

For example, the program for the Bachelor of Science in Business Administration (BSBA) at UNE sets its own benchmarks for each course. The program for the Bachelor of Science in Business Administration (BSBA) at UNE sets its own benchmarks for each course.
